Your Lifetime Income Rate determines the percentage of Investment Value you will receive when you commence your guaranteed Lifetime Income. It comprises an Age-Based Rate with an Annual Income Escalator (which remains a constant percentage year on year) and which increases your Lifetime Income Rate for each complete year you delay commencing your Lifetime Income. When determining your applicable Lifetime Income Rate, ensure you are adding the annual escalator which aligns to your chosen payment option, Fixed or Rising.

^ The Lifetime Income Rates for the Age Pension+ Option assumes there will be no changes to the Capital Access Schedule between the Commencement Date and the date an investor commences the Age Pension+ Option. Should the Capital Access Schedule change during this time, we reserve the right to update the Lifetime Income Rates offered to an investor in respect of the Age Pension+ Option. For information about how selecting the Age Pension+ option may affect your investment, including your access to your Investment Value on withdrawal or upon death, please refer to the PDS.

* If the Spouse Insured Option is elected, refer to the younger age and gender of the Life Insured or the Spouse at the Commencement Date. The Spouse Insured Option may be selected when you commence your Lifetime Income. If the Spouse Insured Option is selected, it will enable the Lifetime Income to continue to be paid in the event of the death of the Life Insured, assuming the nominated Spouse is still alive. Please refer to the conditions outlined in the PDS.

The rates quoted above are applicable to new investors with a Commencement Date between the specified period. Existing investors should refer to the rates applicable at the time of their Commencement Date, available on our website (www.allianzretireplus.com.au). We reserve the right to change the Age-Based Rates and Annual Income Escalators offered at any time. This may include limited offers from time to time. Contact your Financial Adviser or Allianz Retire+ for further information on applicable Age-Based Rates and Annual Income Escalators.
