Exclusive Health Support For Allianz Policyholders

Recent flooding in the Ditwah area has increased the risk of water-borne and vector-borne diseases. Your health and safety remain our priority. Enjoy special discounts on laboratory tests and hospital services across our partnered healthcare networks.

Health Risks After Flooding

Floodwaters may contain harmful bacteria, chemicals, and waste, leading to several illnesses such as:

- **Leptospirosis**
- **Dengue & other mosquito-borne diseases**
- **Skin infections**
- **Acute gastroenteritis (diarrhea, vomiting)**
- **Respiratory illnesses**
- **Contaminated-wound infections**

Symptoms to Look Out For

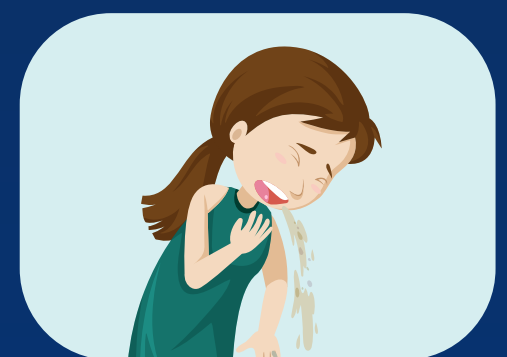

High Fever

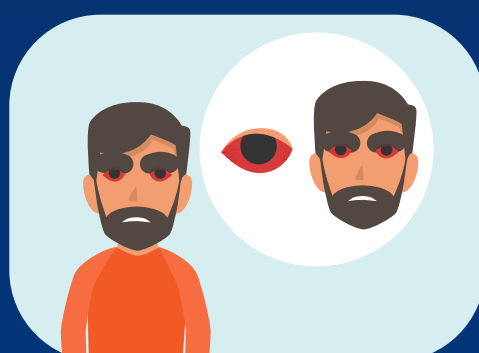

Severe Headache

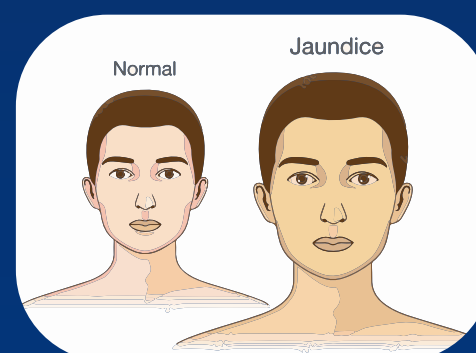

Muscle Pain

Vomiting

Red Eyes

Jaundice
